

MODERN AI

smart. secure. transformative

Modern AI Centre of Excellence (COE)

Govern • Secure • Scale • Deliver Business Value

Mission: To enable safe, ethical and measurable enterprise-wide AI adoption through strategy, governance, security, architecture and operational excellence.

AI COE Pillars

Strategy & Business Value
AI vision, roadmap, investment and ROI

Governance, Risk & Compliance
Policies, standards, risk and regulation

AI Security & Trust
Model, data, agent and infrastructure security

Data & Knowledge
Data quality, lineage and AI-ready data

AI Platforms & Architecture
Models, cloud, APIs and infrastructure

AI Engineering & Agentic AI
Copilots, agents and automation

Adoption & Operations
Training, change and continuous optimization

Key Outcomes

Faster Innovation
Turn ideas into production AI at speed

Lower Risk
Secure and responsible AI adoption

Higher Productivity
Automate work with AI agents

Measurable ROI
Track value and optimize continuously

AI Literacy
Build confidence across your teams

Our Operating Model

Assess

Design

Build

Operate

Optimize

PoC → Pilot → Production → Enterprise Scale

Smarter
Decisions

Greater
Efficiency

Stronger
